

CONTRIBUTING AUTHORS

M. Myint Lwin is Director of the FHWA Office of Bridge Technology in Washington, D.C. He is responsible for the National Highway Bridge Program direction, policy, and guidance, including bridge technology development, deployment and education, and the National Bridge Inventory and Inspection Standards.

Dr. Dennis R. Mertz is Professor of Civil Engineering at the University of Delaware. Formerly with Modjeski and Masters, Inc. when the *LRFD Specifications* were first written, he has continued to be actively involved in their development.

Dr. Tess Ahlborn is an Associate Professor at Michigan Technological University, Director of the Center for Structural Durability and a member of the University Transportation Center: Materials in Sustainable Transportation Infrastructure. Her research and teaching focuses on reinforced and prestressed concrete bridge design.

Frederick Gottemoeller is an engineer and architect, who specializes in the aesthetic aspects of bridges and highways. He is the author of *Bridgescape*, a reference book on aesthetics and was Deputy Administrator of the Maryland State Highway Administration.

Stanley W. Woods worked for the Wisconsin Department of Transportation for 42 years and was the State Bridge Engineer before his retirement.

MANAGING TECHNICAL EDITOR
