

CONTRIBUTING AUTHORS

M. Myint Lwin is director of the FHWA Office of Bridge Technology in Washington, D.C. He is responsible for the National Highway Bridge Program direction, policy, and guidance, including bridge technology development, deployment and education, and the National Bridge Inventory and Inspection Standards.

Dr. Dennis R. Mertz is professor of civil engineering at the University of Delaware. Formerly with Modjeski and Masters Inc. when the *LRFD Specifications* were first written, he has continued to be actively involved in their development.

Scott Snelling is a mechanical and structural engineer with Hardesty & Hanover LLP in New York City. He serves on the American Society of Civil Engineers Task Committee for Sustainable Design and the Structural Engineering Institute's sustainability committee. He has served in the field with Engineers Without Borders and Bridges to Prosperity.

Frederick Gottemoeller is an engineer and architect, who specializes in the aesthetic aspects of bridges and highways. He is the author of *Bridgescape*, a reference book on aesthetics and was deputy administrator of the Maryland State Highway Administration.

MANAGING TECHNICAL EDITOR

Photo: Ted Lacey Photography

Dr. Henry G. Russell is an engineering consultant, who has been involved with the applications of concrete in bridges for over 35 years and has published many papers on the applications of high-performance concrete.

CONCRETE CALENDAR 2010

For links to websites, email addresses, or telephone numbers for these events, go to www.aspirebridge.org.

February 2-5, 2010

World of Concrete

Las Vegas Convention Center, Las Vegas, Nev.

February 17-18, 2010

2010 ASBI Seminar on Design and Construction of Segmental & Cable-Supported Concrete Bridges

Mariott Hotel, Denver, Colo.

February 24-26, 2010

NCBC Concrete Bridge Conference

Hyatt Regency, Phoenix, Ariz.

March 21-25, 2010

ACI Spring Convention

Sheraton Hotel, Chicago, Ill.

April 8-9, 2010

2010 FHWA Bridge Engineering Conference: Highways for LIFE and Accelerated Bridge Construction

Hyatt Regency Grand Cypress, Orlando, Fla.

April 12-13, 2010

2010 ASBI Grouting Certification Training

J.J. Pickle Research Campus, The Commons Center, Austin, Tex.

May 23-27, 2010

AASHTO Subcommittee on Bridges and Structures Annual Meeting

Sacramento, Calif.

May 29 - June 2, 2010

Third International CEB-fib Congress and Exhibition

PCI Annual Convention

PCI-FHWA National Bridge Conference

Gaylord National Resort & Convention Center, National Harbor, Md.

June 6-9, 2010

International Bridge Conference

David L. Lawrence Convention Center, Pittsburgh, Pa.

September 23-26, 2010

PCI Committee Days

Chicago, Ill.

October 11-12, 2010

2010 ASBI 22nd Annual Convention

The Westin Bayshore, Vancouver, British Columbia

October 24-28, 2010

ACI Fall Convention

The Westin Convention Center, Pittsburgh, Pa.

HOW TO
combat global warming,
reduce the
production of greenhouse gases,
and build a
stronger infrastructure.

SPECIFY FLY ASH

(a recovered resource)

as a replacement for cement in concrete.

When you specify fly ash as replacement for cement in concrete, you help reduce CO₂ emissions from cement production, conserve landfill space, and decrease water usage. You also enhance workability and chemical attack resistance, increase strength and produce more durable concrete.

Contact Headwaters Resources for free technical literature and information on how fly ash use benefits the environment and produces better concrete.

David Kreitzer Lake Hodges Bicycle Pedestrian Bridge

San Diego, California — 2009 PCI Design Award Winner

The David Kreitzer Lake Hodges Bicycle Pedestrian Bridge is the world's longest stress-ribbon bridge. With a total length of 990 feet and a 16-inch-thick deck, the result is a thin ribbon of concrete with a remarkable depth-to-span ratio of 1:248. T.Y. Lin International was retained by San Dieguito River Park Joint Powers Authority to provide concept studies, detailed design, and resident engineering services. This unique design project was delivered on time and within budget.

TY·LIN INTERNATIONAL
