

PROJECT / CYPRESS AVENUE BRIDGE REPLACEMENT

The shallow, gently-arched soffit connects the riverbanks during the day. Photo: C. Hodge, T.Y. Lin International.

Bridge accent lighting connects the riverbanks at night. Photo: C. Hodge, T.Y. Lin International.

Stage 2 construction of pier wall with steel end form to create architectural shape. Photo: K. Pope, T.Y. Lin International.

Abutment overlook with spiral-shaped stairway extends to Park Marina Drive, a frontage road along the Sacramento River. Photo: C. Hodge, T.Y. Lin International.

Pigmented and stamped concrete overlays on sidewalks add to the aesthetics of the overlooks. Photo: C. Hodge, T.Y. Lin International.
