

CONTRIBUTING AUTHORS

M. Myint Iwin is director of the FHWA Office of Bridge Technology in Washington, D.C. He is responsible for the National Highway Bridge Program direction, policy, and guidance, including bridge technology development, deployment and education, and the National Bridge Inventory and Inspection Standards.

Kathleen Bergeron is the coordinator of technology transfer within the Highways for LIFE program. She has more than 30 years of experience in transportation programs. Among her numerous accomplishments and awards is the FHWA's highest honor, the Administrator's Award for Superior Achievement.

Dr. Dennis R. Mertz is professor of civil engineering at the University of Delaware. Formerly with Modjeski and Masters Inc. when the *LRFD Specifications* were first written, he has continued to be actively involved in their development.

Robert Healy is the deputy director of the Office of Structures in the Maryland State Highway Administration, where he has worked for 30 years.

Frederick Gottemoeller is an engineer and architect, who specializes in the aesthetic aspects of bridges and highways. He is the author of *Bridgescape*, a reference book on aesthetics and was deputy administrator of the Maryland State Highway Administration.

MANAGING TECHNICAL EDITOR

Dr. Henry G. Russell is an engineering consultant, who has been involved with the applications of concrete in bridges for over 35 years and has published many papers on the applications of high-performance concrete.

CONCRETE CALENDAR 2011

For links to websites, email addresses, or telephone numbers for these events, go to www.aspirebridge.org and select "EVENTS."

January 23-27, 2011

**90th Annual Meeting
Transportation Research Board**
Marriott Wardman Park, Omni Shoreham,
and Hilton Washington, Washington, D.C.

March 24-26, 2011

PCI Committee Days
Wyndham Chicago Hotel, Chicago, Ill.

April 3-7, 2011

ACI Spring Convention
Marriott Tampa Waterside and
Westin Harbor Island, Tampa, Fla.

April 18-19, 2011

**ASBI 2011 Grouting Certification
Training**
J.J. Pickle Research Campus, The Commons
Center, Austin, Tex.

May 15-19, 2011

**AASHTO Subcommittee on Bridges and
Structures Annual Meeting**
Marriott Norfolk Waterside, Norfolk, Va.

June 5-8, 2011

International Bridge Conference
David L. Lawrence Convention Center,
Pittsburgh, Pa.

August 9-12, 2011

**Ninth International Symposium on
High Performance Concrete**
Christchurch Convention Centre,
Christchurch, New Zealand

September 25-28, 2011

Western Bridge Engineers' Seminar
The Arizona Grand Resort, Phoenix, Ariz.

October 2-6, 2011

**7th World Congress on Joints,
Bearings and Seismic Systems for
Concrete Structures**
Green Valley Ranch Resort, Las Vegas, Nev.

October 16-20, 2011

ACI Fall Convention
Millennium Hotel & Duke Energy Center,
Cincinnati, Ohio

October 22-25, 2011

**PCI Annual Convention and Exhibition
and National Bridge Conference**
Salt Lake City Marriott Downtown and Salt
Palace Convention Center, Salt Lake City,
Utah

November 7-8, 2011

ASBI 23rd Annual Convention
Washington Marriott Wardman Park,
Washington, D.C.

HOW TO

combat global warming,
reduce the
production of greenhouse gases,
and build a
stronger infrastructure.

SPECIFY FLY ASH

(a recovered resource)

as a replacement for cement in concrete.

When you specify fly ash as replacement for cement in concrete, you help reduce CO₂ emissions from cement production, conserve landfill space, and decrease water usage. You also enhance workability and chemical attack resistance, increase strength and produce more durable concrete.

Contact Headwaters Resources for free technical literature and information on how fly ash use benefits the environment and produces better concrete.
